## 50% SR & SOP + Fe + Micros

### Professional turf fertilizer

### Premium Grade (SGN 200)

#### Product Features

- Contains three sources of nitrogen with different release rates; Fast, Medium and Slow. The 50% slow-release nitrogen is derived from Methydure®, Nutryon® polymer coated urea and UMAXX® stabilized nitrogen.
- Phosphorus free.
- Contains 1% Iron and 1% magnesium.

#### Turf Benefits

- The slow-release nitrogen materials release over an extended (up to 12 - 16 weeks) period without promoting excessive leaf growth. These sources do not stimulate shoot growth to the extent that root growth is negatively affected. The gradual nitrogen release enhances the recuperative potential of turfgrass.
- Contains a balanced mixture of boron, iron, manganese and zinc to prevent nutrient deficiencies. Particularly useful in sandy soils.
- Iron provides deep green colour without excessive top growth.
