Natural Lawn Food (Fall - Step 4)

Regular particle size

Product Features

- Natural lawn fertilizer for fall.
- Derived from blood meal, composted poultry manure and natural sulphate of potash.
- Contains slow-release nitrogen for prolonged fertilization.
- Homogeneous for uniform distribution of nutrients.
- All the potassium is in the safer sulphate form.
- Contain 6% Calcium.

Turf Benefits

- Particularly useful in fall for helping to increase nutrient reserves allowing the turf to green up more quickly the following spring.
- The organic matter improves the water holding capacity of the soil and enhances microbial activity.
- Calcium helps the plants to become less prone to disease and environmental stress.
