## Natural Lawn Food (Summer - Step 2&3) Regular particle size

### Product Features

- Natural lawn fertilizer for summer.
- Derived from blood meal, composted poultry manure and natural sulphate of potash.
- Contains slow-release nitrogen for prolonged fertilization.
- Homogeneous for uniform distribution of nutrients.
- All the potassium is in the safer sulphate form.
- Contain 4% Calcium.

### Turf Benefits

- Particularly useful during summer months for helping to maintain your turf's green colour and healthy growth.
- The organic matter improves the water holding capacity of the soil and enhances microbial activity.
- Calcium helps the plants to become less prone to disease and environmental stress.
