

CalGro

Premium granulated calcitic lime Premium Grade (SGN 200)

Product Features

- Granulated calcium carbonate is an efficient, fast acting and effective method of supplying available calcium to the plant. Also used to increase pH of acidic soils.
- **CalGro** can be used as part of a sodium abatement program to combat damage from winter salt applications as well as combat sodic soils
- Added Carboxylic Acids help in the development of roots and stimulating vegetative growth by improving the absorption of nitrogen, iron and zinc
- Contains protein hydrolysate which is a source of amino acids and proteins
- Blended with 0.5% Boron

Turf Benefits

- Used to supply available calcium in spring and during summer months
- Humic acid is a carbon rich soil amendment that can help improve soil chemistry and soil microbial activity
- Protein hydrolysate has been shown to improve plant colour as well as development of root and root hairs

Product Characteristics

Product Code:	R544880
Product Type:	Professional Turf Fertilizer for roughs
Particle Size:	Premium SGN 200
Net Weight:	20 kg
Bulk Density:	1089 kg/m ³ (68 lb/ft ³)

Guaranteed Minimum Analysis

		%
Calcium	(Ca)	34.0
Boron	(B)	0.5

Derived From: borax, calcitic lime, humic acid, carboxylic acid

Application Rates

Bag kg (lb)	Product application rate
20 (44.1)	The proper application rate depends on soil test levels of sodium and calcium.
